# inspired by lighting

As a high street retailer in a competitive market, we understand that our customers have many choices on where to shop, both on the high street and online. With this in mind, we have designed and sourced a new, unique lighting range, which we are proud to offer our customers. We have historically offered a wide array of products, suitable for all needs and this new range is certainly no exception.

Whether you are looking for that unique statement piece with outstanding design, have a project to complete or just want something that is not run of the mill, then this catalogue will fill you with design ideas, the highest of quality products, and a huge range of over 1000 items.

This catalogue has taken over two years to collate, picking out inventive, outstanding design concepts, not just as single products, but many ranges offering complementing suites of lighting to suit all your needs, from traditional to modern, contemporary, this catalogue collection has everything to transform any residential or commercial environment.

We pride ourselves on offering a personalised service to all of our customers, providing that personal touch to ensure you are guided and advised so that you not only purchase the most appropriate lighting for your needs, but you have an enjoyable experience and can be rest assured that you can contact us for any after sales service you may require, but most importantly the new collective offers something for everyone at exceptional prices.

Last but by no means least we hope you find our latest collections of interest, we value all of our customer feedback and look forward to being of service to you very soon.

## ...let there be light

**Lamp:** 18 x GU10 20W

**Colour:** Polished Chrome/Clear Glass

OAKFORD

This range of multiple pendants, takes the concept of a melting icicle one step further, not only using long clear crystal drops that mimic a falling drop of water but also shaping the frame which hosts them into a similar statement. The polished chrome metal frames are curved like slowly cascading water which the crystal drops and GU10 lampholders sit inside.

LUNDY

This multiple LED pendant hosts a combination of inventive design concepts boasting an individuality within the lighting market. Each drop sees a rectangular glass piece with a central cut-out, moulded to replicate frozen water. The glacial effect looks even more captivating when illuminated by the integral 3000K LEDs.

**Lamp:** 21 x G9 33W

**Colour:** Polished Chrome/Clear/Amber/Smoked Glass

# VITTY

Vittyed glass pieces diffuse the light emitted from the twenty-one G9 lampholders each suspended from an individual drop. With the picturesque collection of clear, amber and smoked glass a serene ambience is provoked by the textured surface of each glass piece which shimmers beneath the coloured tint like light on water.

Range Characteristics:

**Colour:** Painted Brushed Gold/Clear Glass

GEORGEHAM

This multiple pendant has a painted brush gold finish which offsets perfectly against the 3000K integral LEDs. Each staggered suspension drop hosts a glass piece moulded to reflect crystallised ice which sits beneath the gold bands in which house the LED's. This pendant is visually dazzling when the fitting is illuminated yet still intriguing when the light is not in use.

**Lamp:** 21 x G9 33W

**Colour:** Brass/Copper/Cognac Glass/Cognac

# DEVON

This round multiple pendant light is wonderfully artistic and decorative without compromising function. The incredible maximum 5m drop sees folds of copper and cognac glass around the G9 lampholders beautifully mimicing raw flecks of gold. This is a must have feature bringing a Grecian aura to a modern design.

Range Characteristics:  
4000K Natural White

**Colour:** Matt White/Opal White

# TOPSHAM

Comprised of three different sized 4000K LED loops, with a band of matt white metalwork between the diffusers, a puppeteer hanging method has been applied to each ring so they can be left level or individually angled to create a bespoke ascetic. The immense 100W output can be dimmed with a suitable dimmer module.

**Colour:** Polished Chrome/Clear

BICKINGTON

Drawing inspiration from a dandelion, this stylish pendant introduces a uniquely creative structure. A spherical central frame hosts a myriad of polished chrome rods at different lengths with glass discs, producing depth and dimension. The intricate pattern of the handmade glass adds further character to this stylish lighting solution.

# ABBOTSHAM

A fascinating original design concept sees central tubular columns each with protruding LED spotlight arms, combining an organic tree like design with modern technology. Not only is each fixture an eye-catching feature with their two tone colour finish, they also offer the opportunity to control the directionality of the light emitted as each LED arm is adjustable.

SIDBURY

The Medieval notion of illuminating a room by sitting candles along a hanging frame has been re-imagined with modern day materials to design a collection which will enhance a traditionally styled setting. The Brown Oxide and Bronze finish gives the fixtures an antique feel whilst the glass cylinders surrounding the E27 lampholders furthers the historic ambience.

TALATON

An exquisitely intricate frame crosses over the tinted cylindrical glass which houses E14 lampholders. All seven designs are available in two colour finishes. Each light follows a fairly standard composition whereas the round pendant 4 light has the lampholders situated at either end of two bars which can be pivoted and turned showing art imitating function.

# KELLATON

Presenting a design with polished chrome detail and silver framework that is handcrafted to reflect lengths of ribbon which gently twist into a substantial ring at the end. These rings encircle the round diffuser disc encapsulating the 3000K LEDs. The flat opal surface dispels the optimum amount of light to ensure a uniform output from the integrated high efficiency LEDs.

# WESTWARD HO!

This is a fun, bubbly, inventive design. The frames are host to a collection of unique coloured glass spheres in which the G9 lampholders are concealed. This creative concept emits an intriguing presence when the light from the chosen G9s is dispersed through the tinted effect yet its artistic structure leaves a standout piece even when not in use.

PARKHAM

This visually intriguing collection of fixtures hosts slim, double narrow strips of smooth diffused light with a crisp 4000K colour temperature. A line of white framework runs along the middle of each wave like arm that are mounted on complimenting white bases. The intertwining arms create a design aspect with aesthetic impact thus furthering the attractive nature of this range.

HONITON

The rhythmic twists of this stunning fitting deliver a seamless flow of light. Despite the spiralled directionality of the integral LEDs the pendants as a whole emit an ambient glow of 3000K illumination. In order to offer a wider variety of LED options, this collection boasts a sand gold colour finish making this pendant range a rare must have entity.

# MERRIVALE

Our designers have taken a classic chandelier design and replaced traditional components with more specialised modern parts to present a contemporary collection. Typical metal arms have been exchanged with clear glass ones which are each draped with high quality clear crystal buttons and tear drops. Due to the fragile glass arms, all ceiling lights require assembling.

**SWL484 NOW: £735.00**

# TAWSTOCK

A sputnik composition is used to form this range with long thin stems protruding from the central orb frame. The tip of each arm is adorned with a substantial block of high quality crystal cut into cones and glass trapezoids. The light from the E14 lampholders refracts across the crystals and glass enhancing them for a brilliant effect. Simple in design yet superior in impact.

# KENTISBURY

This range breaks away from the common designs of integral LED lighting. The warm light from the curved LED arms is reflected throughout the fitting as a whole ensuring the leaf shaped clear crystals, fixed to the ends of the polished chrome waved stems, are enhanced by the LED light to produce a dazzling effect. A creative and effective LED and crystal design with character.

LYNMOUTH

An abundance of narrow glass tubes in various sizes are cleverly arranged into a sputnik composition, devising a larger three dimensional effect around the polished chrome central orb frame. This statement design is applied to both a sixteen light pendant and an eight light semi-flush ceiling fixture, with each G9 lampholder situated within the glass tubes.

# MALMSMEAD

The substantial glass balls, encircling the G9 lampholders, have a ridged moulding enhancing the luminous sheen given off their coloured tint. The glass fixes to the slim tubular stems, finished in antique brass, in such a way that imitates beads being threaded along string. The partnership of smoked and amber tinted glass results in a display of quality, sophistication and elegance.

## TORRINGTON

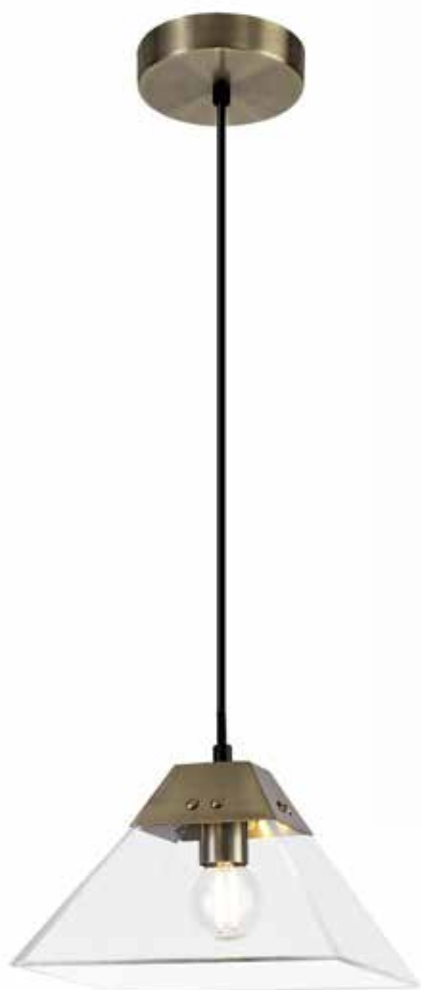

This sleek range utilises the maximum output possible for the chosen E14 or E27 lamp, by transferring the traditional pyramid shape of fabric shades onto a transparent material. The open glass forms not only allow a wider projection of light from the open space but also permit a more overall ambient dispersion of light through the clear glass sides.

Range Characteristics:

## LAPFORD

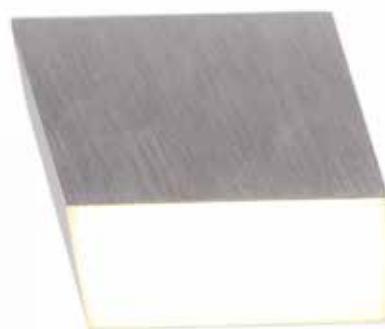

The large cube shape of these ceiling lights generates a more substantial spotlight option. In place of the more common round, slim singular fixtures this design provides eye-catching presence as well as a controlled directionality of light from the GU10 lampholder. Available in two colour finishes, the three dimensional frame pivots with the bracket.

**Colour:** Sand White

MUSBURY

This high powered 50W 3000K LED flush ceiling light, produces an impressive lumen output offering ample light in a low ceiling setting. Its edgy design has a square outline with a setback angled cross cut out to project the light from the integral LEDs. The sand white colour is the final finishing touch to this futuristic modern style.

# STOCKLAND

An ultra-modern LED pendant, this range situates two large rings of 4000K light offset and slightly angled away from one another to give the style more depth and dimension without compromising the impact from the impressive integral LED output. This pendant also comes equipped with a 3-step dimming function.

## MONKLEIGH

This range moulds the frame above the glass in the same way the glass is formed so the frame flows cohesively into the glass piece. Both components on each pendant light has a rippled effect along the entirety of the shapes. In keeping with the harmonious symmetry of this design the black colour of the frame complements the amber tinted glass.

ADAMS

A modern collection that uses a theme of triangular shapes, this range sits small cone shades which house the integral LEDs inside the bottom of a cross shape. The two suspension cables for each shade are held together by a small cylinder that can be slid along the cables to create shapes along the drop that seamlessly coordinate with the style of the frame.

HELE

This range awards original features to a classic design concept. A familiar metal, narrow domed shade houses the E27 lampholder. The most unique aspect is the colour on the inside of each shade which is a khaki finish; in order to accentuate this, the edges around the shades have small oval cut-outs to display the inner shade and create fascinating shadows.

NORTHAM

This industrial collection can be applied to a domestic or commercial setting. The secure surface mount base hosts the GU10 lampholders in both the one and two light versions. The standard colour finish is white but the gypsum material allows for the product to be painted in the consumer's chosen colour to better comply with the theme of the room setting.

# EXMOUTH

The vintage effect of the Tiffany glass is interpreted to reflect Aztecan artistic creations with the shapes and positioning of the glass pieces being furthered by the shape of the shade itself. Giving this range a subtle modern edge the shades are embedded with clear crystal pieces in keeping with the monochrome palette of coloured glass.

## TEIGNMOUTH

A classically traditional Tiffany shade collection, this range pairs primary colours with a more neutral cream to create a balanced combination of beautiful Tiffany glass. The familiar dragonfly pattern is slightly modernised with the clear crystal pieces in place of the more expected glass drops adding a touch of sparkle for a new age.

# HUNTSHAW

An aged antique brass table lamp furthers the vintage effect of this product with the decorative applicability of the lamp elevated by the dome shaped shade comprised of cream and brown Tiffany glass. A touch of sparkle enhances its appeal in the form of high quality clear crystal squares embedded at the point of each feathered pattern.

TORCROSS

This small table lamp, holds a traditional bubble umbrella style Tiffany shade. The vivid blue colour around the bottom of the shade creates contrast with the remaining white finish of the dome shape. Whilst standard Tiffany shades can often feature embedded glass pieces, this offers a more modern and eye-catching option with clear crystal squares in place of glass.

**Range Characteristics:**  
Black/Gold Resin Base

YARNSCOMBE

In contrast with the commonly soft curved or triangular forms of glass tiled to form Tiffany, this lamp provides a more angled Aztec effect by using square and rectangular shapes within its shade. The neutral colour finishes are enhanced by the clear square crystal components found along the widest section of the glass.

**Range Characteristics:**

Black/Gold Resin Base

Trending Grey Finish

Inine Switch

## JACOBSTOWE

The rim of this Tiffany shade is coated in the same textured black finish as the table lamp itself, ensuring the shade design flows seamlessly into the base effect. The black outlines of the alternating white and grey glass forms an intriguing pattern around the prism shade. Clear crystal along the edges has been used in place of the usual glass beads.

**Colour:** Cream/Amber/Clear/Black/Gold

**Range Characteristics:**

Black/Gold Resin Base

Warm Amber/Gold Finish

Inine Switch

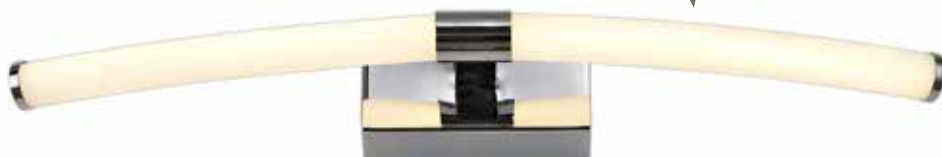

## KENTON

This table lamp is in keeping with antique Tiffany designs using neutral traditional cream and amber coloured glass. The base of the shade displays appealing patterns with amber glass offset against the cream background. Within the centre of the amber triquetra form there are clear crystal pieces to refract the light and add a touch of sparkle to this generally classic lamp.

SAND

The tubular opal white diffusers ensure a complete ambient dispersal of lumination from the integral LEDs. The cool 4000K colour of the LEDs is the ideal temperature for IP44 rated bathroom fixtures where a bright clearer light is required. Three various wall lamps and a ceiling light are finished in polished chrome giving a further modern touch to the collection.

Frosted White

WOODACOTT

The long panel form of this wall lamp angles slightly away from the wall to further project the light into a larger dispersal beam along the surface wall. The integral 3000K LEDs are built into the frame and concealed behind the long opal diffuser which sits flush against the arm to ensure its presence is not obvious or obstructive.

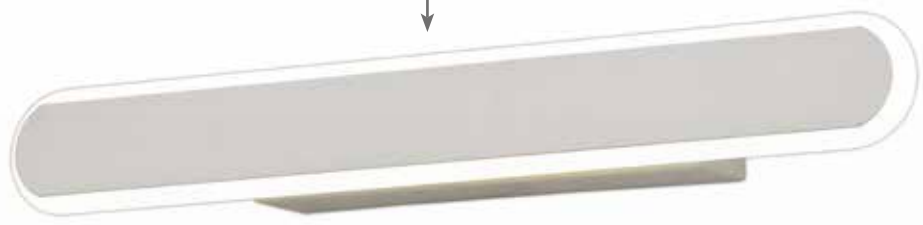

Range Characteristics:

PLYMTREE

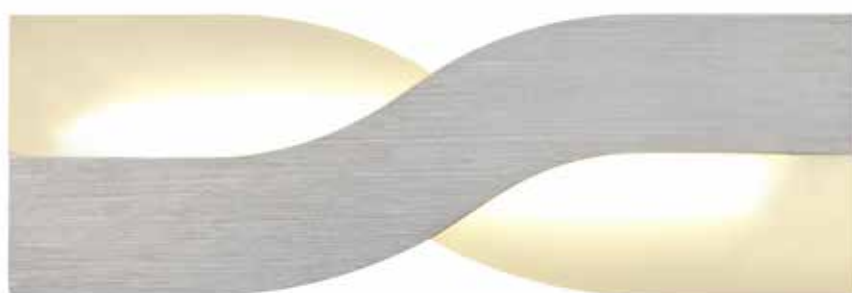

Available in three different sizes which increase in output as they increase in size, this collection of LED wall lamps are slim line and understated. The narrow oval shaped diffuser has a central sand white plate which is slightly smaller to accommodate a halo of 4000K light, producing a serene effect.

intuitive design

EXETER

These wall lamps successfully use the metal framework and diffused integral LEDs to not merely provide a wall lamp but an artistic illuminated feature. The 3000K light is filtered through a waved acrylic piece which is set back behind the same form created from the metalwork.

Range Characteristics:  
3000K Warm White  
Not Dimmable  
3 Years Warranty

**SWL138 NOW: £95.00**

**Size (mm):**  $\updownarrow 90 \leftrightarrow 325 \mapsto 115$

**Lamp:** 1 x Integral LED 6W, 480lm ☐

**Colour:** Satin Brown/Polished Chrome/  
Frosted White

## FREMINGTON

A hollowed belt shape forms this fittings framework and creates an enhanced halo effect of the 3000K LEDs. The optional colour finishes available; satin brown or white both harmoniously complement the aura of warm light illuminating the area.

Range Characteristics:  
3000K Warm White  
Not Dimmable

**Colour:** Brushed Gold/Frosted White

KINGSBRIDGE

The rectangular strips of metal and acrylic on these wall lamps are layered and slightly fanned out for a unique lighting effect. The acrylic piece houses the integral 3000K LEDs offering a total of 8W, an impressive output for the size of the wall lamp itself. Available in two colour finishes, these wall lamps are appropriate for any colour scheme.

## WOODLEIGH

These wall lamps have a distinctly creative form. The curved tubular shape is cut away at the front displaying the depth of the cylinder, leaving a comparatively small strip towards the bottom of the wall lamp to conceal the integral LEDs. This modern concept is furthered on one piece by the different colour finishes available.

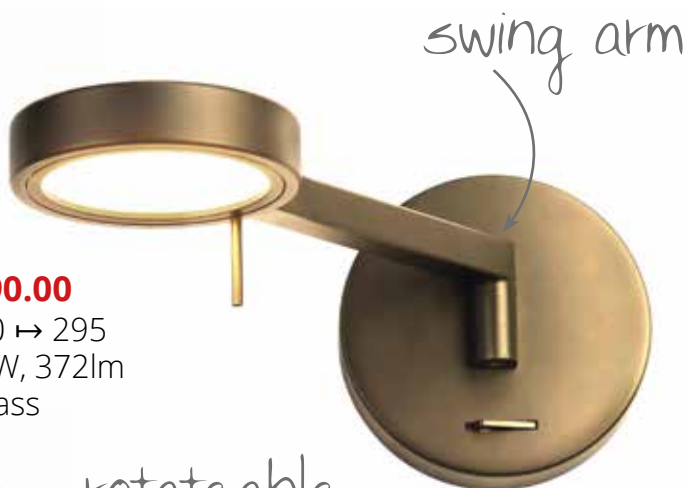

**SWL722 NOW: £78.00**

IP65

SHEBBEAR

The small globe outline of these fittings is enhanced with their mixture of matt black and brushed bronze colour finishes. The wall lamp, single pendant and festoon kit all take E27 lampholders creating a myriad of lighting solutions. This range is unexpectedly IP rated giving you the option to build a more characteristically homely area in an outdoor setting.

**Colour:** Matt Black/Antique Brass/Clear

PLYMPTON

The hexagonal form of this collection is devised from a matt black opaque top with the bottom half beneath the light using a Antique Brass open grid cover. Each fitting uses E27 lampholders which are sheltered by a clear glass globe. You would typically assume these fixtures are for indoor use however every item has an IP65 rating.

Range Characteristics:

IP65

OTTERTON

This industrial design which combines satin nickel and polished chrome colour finishes presents a single pendant and wall lamp as well as a stylish 6 light festoon kit most popularly seen in bars and restaurants. The unexpected twist of this range is that each item is IP65 rated allowing you to bring a traditionally indoor feature outdoors.

## MERTON

The E27 lampholder is sheltered beneath the matt black, round dome shade and the grey caging fixed to the bottom of the dome creates a spherical outline. As standard outdoor lighting tends to have its own niche, this collection stands out because it uniquely takes a design concept more commonly seen on indoor lighting and makes it IP rated.

**SWL769 NOW: £174.00**

TIVERTON

A 3D diamond shape acts as the outline shape housing the E27 lampholder and clear round glass. The 3m 6 light festoon kit has ample applications to enhance its given setting. Along with the available matching wall lamp, these are fittings you would commonly expect to find within an indoor setting but both lights are actually IP65 rated for exterior use.

IP54

CHAWLEIGH

This outdoor wall lamp uses a uniform cube frame with open faces to offer a clear view of the unique glass globe. The clear seeded glass acts a protective seal around the E27 lampholder giving the fixture an IP54 rating whilst also providing a stylish feature appropriate for outdoor lighting. The dark anthracite colour finish offers extra durability against all types of weather.

## INSTOW

The wall lamp and pendant follow a vintage theme reminiscent of the classic lanterns used on sailing boats. A clear bell glass, formed with small bubbles to replicate fine drops of water, safely houses an E27 lampholder. The nautical nature of the gridline frame complements the glass feature whilst providing an added defence against outdoor elements.

**Lamp:** 1 x E27 60W  
**Colour:** Anthracite/Clear Raindrops

## KELLY

A pentagonal prism with open faces created the angled outline of this outdoor IP54 rated wall lamp. The dark anthracite finish is durable against adverse weather, while the protected E27 lampholder is surrounded by a captivating dimpled, clear glass cylinder.

seeded glass

PINHOE

This range combines design aspects from both glass display cases and vintage lanterns. The transparent glass panes clearly display the E27 lamp used, which is ideal when the fixture is being used along with a decorative lamp. With an IP54 rating the seeded effect of the glass subtly mimics raindrops, compatible for an outdoor fixture.

SANDFORD

This collection harbours a high powered 10W 3000K LED section encased in an opal white acrylic diffuser. The LED head is fixed within a durable graphite frame structure, perfect for the outdoor usage of an IP54 range of lighting options. The wall lamp available is adjustable in order to offer added directionality of the light projection.

# WINKLEIGH

A 3D optical effect is achieved with layers of contrasting materials built around the integral 3000K LEDs. This nesting concept shows an opal diffuser, within a clear casing, within an anthracite metal frame. Available in a round or square shape with an IP54 rating, this range proves you do not need to compromise style when choosing an outdoor lighting solution.

**Range Characteristics:**

WITHERIDGE

Uniquely formed, this modern IP54 wall lamp uses a bracket type frame shape to establish an original display of illumination. The longer backplate is curved outwards from the wall and a smaller piece of the same design is then fixed in a reversed position over the diffuser box which houses the integral 3000K LEDs generating deep shadows.

## ABBEY

Offering an inventive wall light design the square form of the frame hosts a 3D clear casing reflective of a traditional museum display case. Both wall lamps are IP65 rated making them suitable for outdoor use, while one design holds the integral LEDs within an acrylic diffuser the other enables more flexibility with two E27 lampholders.

IVYBRIDGE

This range uses uniform shapes in a unique way to create a new mode of projecting light. A pyramid forms the backplate, positioning the integral LEDs along the two faces of the shape. The rectangular metal plate is then fixed at the front of the fitting to shelter the light dispersion and throw the illumination in opposite directions on either side of the wall lamp.

### Range Characteristics:

# MEETH

The clean lines of triangular shapes envelope the integral LEDs driving the 3000K light into a 45 degree projection. This outdoor wall light, available in two colours, creates an aged worn impression by using a raw application of coating which produces a brushed chalk like effect offering a rustic urban quality to your outdoor area.

**Range Characteristics:**

IP54

PAIGNTON

This outdoor wall lamp emulates a rustic atmosphere with the worn brushed effect of the black/gold or silver/gold colour finish. An up and downward directionality of light is achieved from the open faces of the cylindrical frame. Integrated barn doors enables complete independent flexibility in the two emitted beam angle.

### Range Characteristics:

## PRINCETOWN

This range combines primary shapes with LED technology to produce a futuristic modern collection of outdoor wall lamps. The rectangular panels of 3000K LEDs are vertically threaded through a horizontal band of metal framework. This creative concept is optically pleasing whilst still maintaining a reliable functionality desired of LED lighting products.

IP54

## PUTSBOROUGH

The brushed black/gold colour finish gives a weathered, industrial quality to the sleek framework of this outdoor wall lamp. The slight projection of this fixture, from the surface to which it is applied, is a coveted aspect of an IP54 rated product ensuring an unobtrusive lighting solution either on pathways or even within a small bathroom.

Range Characteristics:  
3000K Warm White

## ROMANSLEIGH

This range harmoniously combines traditional weathered aspects with modern technology to create an interesting IP rated collection of wall lamps. The integral 3000K LEDs are diffused across the longest edge of the rounded rectangular frame. The LEDs modern presence is tempered by the rustic brushed black and silver colour finish.

Range Characteristics:  
3000K Warm White

SHIRWELL

This collection takes a simplistic circular shape and manipulates its form to throw a more outward projection of 3000K LED light. The dipped curvature allows a wider angle beam often required of outdoor lighting. The two neutral colour options complement their unassuming design.

Range Characteristics:  
3000K Warm White

## SHUTE

This is a highly versatile collection with an IP54 rating and adjustable heads. With a durable anthracite colour finish, the wall lamps are available in a one and two light version each with integral 3000K LEDs housed within a rounded rectangular shape that turns, giving added control over the directionality of light.

TOTNESS

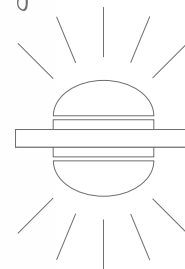

This wall lamp is the closest design available to best mimic the natural moulding of stone walls. The inconspicuous style only slightly projects from the wall enough to give a powerful singular direction of illumination from the integral 3000K LEDs. This subtle nature in an anthracite colour finish is perfect for outdoor use with an IP54 rating.

TWITCHEN

This 12W wall lamp is IP54 rated with an intriguing structure. The integral LED head is shaped to mimic a classic lampshade with the light filtered through both the bottom and top of the shade throwing light in two directions. A dark brown colour finish reflects natural woodland elements allowing the wall lamp to more seamlessly settle into a garden setting.

**YELLAND**

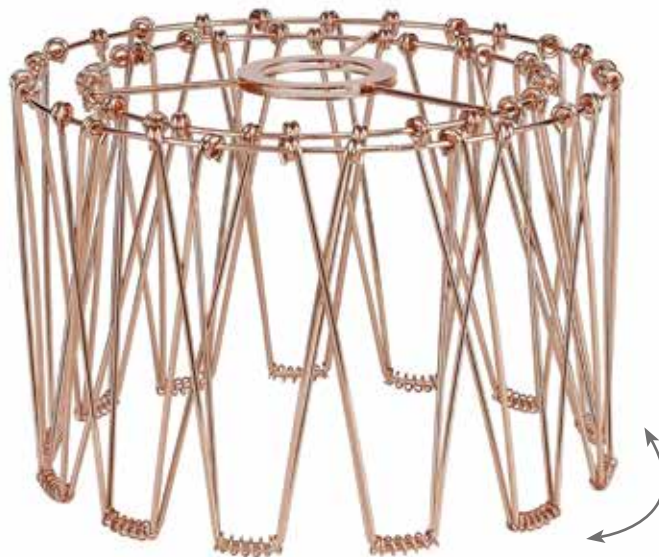

These outdoor IP54 rated wall lamps emulate a rustic urban atmosphere with their weathered colour finishes. The curved wall lamps use a black base with brushed flecks of gold whilst the rectangular version uses strokes of black and silver. This effect diminishes any impact from outdoor elements ensuring a reliable longevity of use even in harsher weather.

## TECHNICAL GUIDANCE

### COLOUR TEMPERATURE

Colour temperature is conventionally expressed in kelvins, using the symbol K, a unit of measure for absolute temperature. Colour temperatures over 5000 K are called "cool colours" (bluish white), while lower colour temperatures (2700–3000 K) are called "warm colours" (yellowish white through red).

| TEMPERATURE       | SOURCE                           |
|-------------------|----------------------------------|
| 1700 K            | Match flame                      |
| 1850 K            | Candle flame, sunset/sunrise     |
| 2400 K            | Standard incandescent lamp       |
| 2550 K            | Soft white incandescent lamps    |
| 2700 K            | Soft white CFL lamps & led lamps |
| 3000 K            | Warm white CFL lamps & led lamps |
| 3200 K            | Studio lamps, photofloods, etc.  |
| 3350 K            | Studio CP light                  |
| 5000 K            | Horizon daylight                 |
| 5500 K            | Cool white/daylight CFL          |
| 6200 K            | Xenon short arc lamp             |
| 6500 K            | Daylight, overcast               |
| 6500 - 6900 K     | LCD or CRT screen                |
| 15,000 - 27,000 K | Clear blue poleward sky          |

*These temperatures are merely characteristics; there may be considerable variation*

### LEDs EXPLAINED

**SMD** - Surface Mounted Diode, typically mounted and soldered onto a circuit board.

**COB** - Chip on Board, has multiple diodes typically around 9 or more.

**FILAMENT** - an LED lamp designed to resemble a traditional incandescent light bulb.

**HI POWER** - LED's that offer a higher lumen output per watt.

**DOB** - Driver on Board, has an integrated driver.

**CRI** - A colour rendering index is a quantitative measure of the ability of a light source to reveal the colours of various objects faithfully in comparison with an ideal or natural light source.

**DRIVER** - an electrical device that is used to power LED's. The correct driver is crucial to the performance of LED's.

# TECHNICAL GUIDANCE

## IP RATING (INGRESS PROTECTION)

An IP (Ingress Protection) rating is assigned to any product where its ability to prevent objects of varying sizes and compositions from breaking its barriers is relevant. The two tables following outline what each number means.

| LEVEL | OBJECT                               | EFFECTIVE AGAINST   |
|-------|--------------------------------------|---|
| 0     | Not Protected                        | Not Protected   |
| 1     | Dripping Water                       | Dripping water (vertically dripping water) shall have no harmful effect.  |
| 2     | Dripping Water when tilted up to 15° | Vertically dripping water shall have no harmful effect when the enclosure is tilted at an angle of up to 15° from normal position.                                      |
| 3     | Spraying Water                       | Water falling as a spray at any angle up to 60° from the vertical shall have no effect.   |
| 4     | Splashing Water                      | Water splashing against the enclosure from any direction shall have no harmful effect.  |
| 5     | Water Jets                           | Water projected by a nozzle (6.3mm) against the enclosure from any direction shall have no harmful effect.  |
| 6     | Powerful Water Jets                  | Water projected by powerful jets from a nozzle (12.5mm) against the enclosure from any direction shall have no harmful effect.  |
| 7     | Immersion up to 1m depth             | Ingress of water in harmful quantities shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1m of depth). |
| 8     | Immersion beyond 1m depth            | The enclosure is suitable for continuous immersion in water under conditions specified by the manufacturer.   |

## IP RATING (CONTINUED)

| LEVEL | OBJECT         | EFFECTIVE AGAINST   |
|-------|----------------|---|
| 0     | Not Protected  | Not Protected   |
| 1     | >50mm          | Any large surface of the body, such as the back of the hand, but no protection against deliberate contact with body part. |
| 2     | >12.5mm        | Fingers or similar objects.   |
| 3     | >2.5mm         | Tools, thick wires, etc.  |
| 4     | >1mm           | Most wires, screws etc.   |
| 5     | Dust Protected | Ingress of dust is not entirely prevented, but it must not enter in sufficient quantity to interfere with the equipment.  |
| 6     | Dust Tight     | No ingress of dust. Contact prevention.   |

## LUMENS AND WATTAGE

| LUMENS      | 220+ | 400+ | 700+ | 900+ | 1300+ |
|-------------|------|------|------|------|-------|
| Traditional | 25W  | 40W  | 60W  | 75W  | 100W  |
| Halogen     | 18W  | 28W  | 42W  | 53W  | 70W   |
| CFL         | 6W   | 9W   | 12W  | 15W  | 20W   |
| LED         | 4W   | 6W   | 10W  | 13W  | 18W   |

Lumens (lm) are a measure of the amount of light (which is visible to the human eye) from a lamp or light source. The higher the lumen rating the “brighter” the lamp will appear. Watts don’t necessarily measure the brightness of a bulb, only the amount of electricity it uses. With so many new bulbs giving out the same amount of light but at an increasingly lower wattage, we need to compare bulbs by how much light they actually give out.

*\*Figures are approximate and used only to illustrate the correlation between various wattages and lumen values.*
